NEW MINISTER IS HERE

For the Purpose of Forming an
Evangelical Lutheran Church.

SENT OUT AS A MISSIONARY

Rev. Mr. Weber Has Found There Are
About Fifty Persons of the Faith
in the City.

Coshocton is to have a new church
and the first service will be held in
Almack hall, at Walnut and Cherry
streets, Sunday morning at 11 o'clock.
It will be known as the Evangelical
Lutheran church.

Efforts have been repeatedly made
to organize the adherents of the faith
in Coshocton, but all have failed for
the principal reason that no encourage-
ment came from the synod. At a recent
meeting of the synod, held in
Bakersville, it was decided to begin
mission work in this city, and to this
end Rev. T. H. Weber has been called
to take charge. The gentlemen ac-
cepted the call and coming to Coshocton
easily located 50 persons whose
religious tendencies were in the di-
rection of the church he represented.

Rev. Mr. Weber is originally from
Columbus but for three years was a
student at the Chicago Lutheran
seminary from which he graduated a
short time ago. He will stay in Co-
shocton, and will use every effort to
make successful the work to which he
was called.

BISHOP WATTERSON'S WILL.

His Estate is Transferred to Bishop Henry
Moeller.

The will of the late Bishop John A.
Watterson, of Columbus, has been filed
for probate. According to the pro-
visions of the will all property of
whatever kind or nature which the
testator held as the successor to the
late Rt. Rev. Sylvester B. Rosecrans
is bequeathed in trust to Most Rev.
William Henry Elder, archbishop of
Cincinnati, Rt. Rev. Casper H. Bor-
gess, bishop of Detroit; Rt. Rev.
Francis Silas Chatard, bishop of Vin-
cennes, and Rt. Rev. Camillus Paul
Moes, bishop of Covington; or to the
survivors or survivor of them, that
they may convey the same to his suc-
cessor as bishop of the Columbus di-
ocese by appointment of the holy apos-
tolic see of Rome.

The property thus conveyed is the
property of the Catholic church in
this diocese and is conveyed from one
bishop to his successor in the above
manner.

A policy of \$20,000 in the Equitable
Life Insurance company is also be-
queathed his successor, the proceeds
of which are to go toward the pay-
ment of the debt of the diocese.

TO SAVE HOUCK.

Transcript Has Been Filed in the Circuit
Court.

The effort to save George W. Houck,
the Bladensburg murderer who is
serving a life term in the penitentiary,
has reached that point where the
transcript has been filed in the circuit
court of Knox county.

It is a very voluminous affair, con-
taining 616 pages of type-written mat-
ter. It contains about 300,000 words.
Every word spoken by the court, the
attorneys and the witnesses during
court sessions that had any connection
with the trial of the case appears in
the transcript. Miss Jones, the court
stenographer, prepared the transcript.
She has worked many nights until 12
o'clock since the trial was finished in
preparing it.

HIGH IN THE AIR.

John Finley, of Roscoe, Painted the Flagpole
on the Courthouse.

Many persons were surprised as they
passed Courthouse park this morning
to see a man on a ladder leaning
against the flagpole on the tower of
the courthouse. Small knots of peo-
ple watched him, but he gave them
no attention and went on with his
work.

The man was John Finley, of Ros-
coe, and he was painting the flagpole.
The pole has been in need of a new
dress for some time but because of its
position on top of the tower the task
was not relished. Finley did the work
in a short time, and the pole now pre-
sents a much better appearance.

COSHOCTON CAPITAL

Is Invested in a Fine New Store in Zanes-
ville.

The following from the Zanesville
Signal speaks of well known Coshocton
gentlemen:

"The firm of Zerbe & Dyer opened
their new novelty store at the old Sil-
vey stand on Main street, Wednesday
morning. A fine stock of house fur-
nishings is displayed in the pleasant
store room. W. F. Zerbe, of Mt. Ver-
non, will manage the store. E. C.
Dyer, proprietor of the Park hotel at
Coshocton, and J. P. Zerbe, who con-
ducts a store there, the other partners
of the firm will remain in Coshocton."

Excursions to Mt. Vernon.

Excursion tickets to Mt. Vernon
will be sold via Pennsylvania lines
August 9 to 20, inclusive, account

MANY HIDING PLACES.

Killbuck Is a Good Stream for the Myster-
ious Animal.

Colonel Pren Metham was discussing
the mysterious thing that is arousing
people along Killbuck near Helmick,
when he made the statement that
persons living along the Walhonding
would probably not see it.

"Killbuck is a deep, muddy stream,"
he said, "filled with drift and just the
place for such a creature. It is there
big pike is caught, and every fisher-
man knows how those fellows keep
close to cover. I have not seen a large
pike caught in the Walhonding in 40
years."

NEXT WEEK

Work Will Be Commenced Frescoing the
Courtroom.

Common pleas courtroom will be
filled with scaffolding the next few
days and work will be commenced
frescoing the walls and ceiling. The
contract was let by the commissioners
some time ago, but nothing could be
done until the Heltzer-Boche trial was
out of the way.

When the September term opens
the courtroom will present a better
appearance than it has for many years,
and the water stained walls will be a
thing of the past.

THE COSHOCTON CLUB

May Be a New Organization in
Columbus.

RESIDENTS OF THE OLD TOWN

May Organize an Association for the Pur-
pose of General Sociability
at All Times.

It is proposed in Columbus to or-
ganize an association of people who
are residents of the Capital City who
formerly lived in Coshocton county. If
the object is accomplished headquarters
will be established to be open all
the time. Coshocton
county people will be always wel-
come, and there they can read
their local newspapers, find friends
and acquaintances, and feel at
home. Should another Coshocton ex-
cursion go to Columbus preparations
can be made for a reunion of all former
Coshocton county people in the state
capital.

The plan has been discussed among
a number of former Coshocton people
now in Columbus and is meeting with
favor. There are many there, among
them a number of men who have be-
come prominent in the business, pro-
fessional and social life of Columbus. If
they decide on the undertaking it is a
forgone conclusion that the Coshocton
club will very soon become a promi-
nent institution.

WANTS ALIMONY

Because Her Husband Has a Note For Two
Hundred.

Mrs. Elizabeth March has filed a pe-
tition in probate court asking alimony
from her husband, Charles March.

The petition says they were married
in January, 1888, and have five chil-
dren. Gross neglect is made the
ground of the petition, and Mrs. March
says her husband has wholly failed to
provide for her since September, 1900,
although he is fully able to do so. She
is now living with her brother, John
Fett, White Eyes township, she says,
because March provides no home for
her.

The defendant has no property, it is
stated, except a note for \$200 which
has been sent to the Shanesville bank
for collection. An injunction is asked
restraining the payment of the note.
Upon the hearing of the case it is
asked that the note be awarded as al-
imony. March resides in Kent.

FROM OTHER TOWNS

Will Come Delegations to Aid in Labor Day
Celebration.

Arrangements for the Labor day
celebration are being pushed along
and leading members of the commit-
tee predict it will be a complete suc-
cess. The program has been prepared
in detail and it will be announced
within the next few weeks.

One of the most gratifying features
of the celebration will be the pres-
ence of delegations from Newcomer-
stown, Dresden and other places in
this part of Ohio. Union organ-
izations have written to the commit-
tee asking that they be given a place
in the parade, and their requests have
been gladly granted.

The committee is working hard to
make the day more of a success than
was that of last year, with the pros-
pects very much in their favor.

KILLING GROUNDHOGS

Two Dogs Have Sent One Hundred to Their
Death.

Bruce Lapp, son of Abner Lapp, of
Adams township, has two dogs that
have certainly broken the record as
groundhog catchers this season. So
far they have captured 100 of these
animals and it is very probable that
others have been caught by them of
which Bruce did not learn. The dogs
have been trained to perfection and a
groundhog must be very shy if he is
not finally captured by them.—*Adams-
ville Register.*

ANOTHER REFRIGERATOR

Visited By the Thief Who Robbed C. H.
Geidel Tuesday.

It is learned that the thief who
robbed C. H. Geidel of his breakfast
some time during Tuesday night made
another raid in that neighborhood.
The victim was Charley Raymer, and
the stranger took all he could find.
The materials for a very good meal.
It is hoped the police will soon run
down the thief and the authorities
will give him a salty dose in the
works.

THE OLD STORY

Caused Judge Eason to Grant a Divorce
Wednesday.

Judge Eason granted a decree of di-
vorce to Mrs. Mary Parks from her
husband, Sylvester Parks, Wednesday
morning just before court adjourned
for the term. The application was
made on the grounds of gross neglect
and cruelty. The household goods
were given as alimony. The case was
not contested.

Man with horse and wagon wanted
to deliver and collect, no canvassing.
\$21 per week and expenses. \$150 cash
deposit required. Collector, box 78,

ings Told in Brief.

—The Gray Hardware Company.

—The front of the Boston store is
being painted yellow.

—Hissong & Co. have opened a
branch store in Newcomerstown.

—A large number of persons from
Nelle spent Wednesday at Hawatha
park.

—The thermometer is steadily ris-
ing and another season of warm
weather is in sight.

—Rev. Dr. Hunt, who has been ill
for almost a week, is improving but is
still confined to his room.

—A large number of society people
enjoyed an unusually pleasant dance
at Forbes hall Wednesday evening.

—The new residence being built on
Walnut street for C. J. Brown is al-
most completed. It is modern in ev-
ery particular.

—John Peacock, who has been ill at
his home on Sixth street for some
time with appendicitis, is much bet-
ter and will soon be well.

—Cars on the Wheeling & Lake
Erie are scarce, and the mines of the
Coshocton district are feeling the ef-
fect of the shortage.

—More stone has been sent here by
the Pan Handle company for the im-
provements at the passenger station
but the workmen have not arrived.

—Doctor Loring, of Columbus, was
here Thursday evening in consulta-
tion with the physicians who are at-
tending W. B. McCabe. Mr. McCabe
is critically ill.

—His many friends will be pained
to learn that former Councilman J.
C. Merrill is lying at the point of
death and is not expected to live
through the night.

—Born to Mr. and Mrs. G. W.
Sherris, East Main street, twin
daughters. They are exceptionally
fine babies. The happy father is a

is recovering her health and will soon
be well. Since going to Georgia the
lady has suffered an attack of ty-
phoid fever.

—Contractor Kissner is making
preparations to begin the work of
paving Seventh street next Monday.
If he succeeds in finishing the con-
tract in 40 days it will be the quickest
work in paving ever done in Coshocton.

—The Columbus, Buckeye Lake &
Newark Traction company on Wed-
nesday filed with the canal commis-
sion application for the lease of a
strip of state land near Idlewild park,
Newark. The company has been en-
joined from the public road.

BURNED THE WHEAT.

Peter Gosser Suffered Heavy Loss Near
Bacon Wednesday.

Peter Gosser, whose farm is located
near Bacon, suffered the loss of \$100 in
wheat Wednesday afternoon.

Gosser and a force of men were
threshing and had 22 bushels of grain
when a spark from the engine found
lodgment in the stack. It was dry as
tinder and in a moment burst into
flame. An effort was made to save
the stack, but without avail and the
wheat burned in short order. The
machine was saved after a fierce bat-
tle. The loss will amount to over \$100.
The wind fortunately was not in the
direction of the barn and it escaped
injury. A small stack of oats was also
destroyed.

STOLE A VALUABLE FERN

Sneak Thief Turns His Attention in a New
Direction.

The Coshocton sneak thief stops at
nothing, which means that when he
sees that which is desirable he bas-
tenes around to secure it.

His latest attraction was a fine fern
and the victim is Mrs. Elizabeth A.
Voorhees who resides at 617 Cherry
street. The fern was stolen during
Wednesday night from the porch, and
Mrs. Voorhees announces that the
matter will end at once if the thief
returns it. Otherwise the individual
will be called upon to answer in police
court.

MADE PIATT MEMBER

Of the Board of City School Ex-
aminers.

HE WILL TAKE FENTON'S PLACE

Bids Will Be Received for the Year's Sup-
ply of Fuel—Committee Appointed
to Buy Building Site.

Four members of the school board
were present at the meeting Wednes-
day evening, President Frew and Mr.
Hutchinson being absent. Mr. Glenn
was made temporary chairman.

Upon motion of Mr. Burns a com-
mittee of three was appointed to se-
cure options on ground for the new
school building. Mr. Cassingham, Mr.
Agnew and Mr. Burns were appoint-
ed. They will report at the next
meeting.

The resignation of J. F. Fenton as a
member of the board of city examiners
was accepted and Doctor Piatt
was appointed to fill the unexpired
term.

Janitor West, of the Cherry street
building, had his salary fixed at \$20 a
month for 12 months. His salary was
not fixed when he was employed be-
cause it had not then been decided
whether an addition would be built to
the Cherry street building.

Clerk Wm. Burns was instructed to
ask for bids from coal dealers for the
year's supply of fuel.

Bids were allowed as follows: J. E.
Foster, \$3.50; J. F. Fenton, \$10; Cit-
izens Telephone company, \$15; Broome
& Herbig, \$23.25; Western Union Tel-
graph company, 73 cents; J. C. Mill-
igan, 56; Coshocton Advertising Co.,
\$6; The Age, 55 cents; Meek & Beach
Co., \$2; Coshocton Hardware Co.,
\$2.45; Ransom Dry Goods Co., \$13.35;
Gray Hardware Co., \$11.95; J. A. Price \$1.
D. Hudson, coal, \$7.65; W. W. March,
\$3; E. G. Abbott, \$3; D. C. Martin, \$3;
H. M. Schott, \$3.

OLD SOLDIERS ARE HERE.

Annual Reunion is Being Held at the Fair
ground.

The annual reunion of Coshocton
county soldiers is being held at the
fairground.

The large number of veterans in at-
tendance and the delightful weather
are giving the party an unusually
pleasant day. The program provided
for the usual social hours in the morn-
ing and music and oratory in the af-
ternoon. The feast at noon was all
and more than could be asked. Co-
shocton's old soldiers are as fond of
spring chicken today as when they
marched with Sherman to the sea or
fought their way from Washington to
Richmond.

VEGETABLES ARE SCARCE.

Dry Weather is Causing a Scarcity and
Raising Prices.

The visible supply of vegetables for
the Coshocton market is by no means
large and for this season prices are
floating above the town. Vegetables
that are usually peddled about the
streets at this season are scarce, even
in the stores, and unless rain comes,
the prediction is, the supply will be
even smaller and prices correspond-
ingly greater.

HIS OLD COMMAND

Will Be Entertained by Captain James Next
Thursday.

Captain James, who commanded K
company of the Thirty-second Ohio
in the Civil war, will entertain the
surviving members and a number of
friends at his residence on Main
street next Thursday. The number
of soldiers who served in the company
has dwindled down to little more
than a dozen, but it is expected the
majority will be present at the reun-
ion.

A Game of Chance

That's what business is. And
your chances will be a good deal
better if you wear tailor-made
clothes than if you go about
obviously ready-made.

There's food for serious thought
in that assertion.

ON THE FIRST BALLOT

Des Moines Man Was Chosen
to Head the Ticket.

LEADER OF HAWKEYE REPUBLICANS.

Plaudits in the Platform For State
and National Administrations—Gold
Standard and Protective Tariff With
Reciprocity and Insular Policy Up-
held—Political Intelligence.

Cedar Rapids, Ia., Aug. 8.—It re-
quired only one ballot to decide the
contest for the Republican nomina-
tion for governor of Iowa, and the
choice fell upon Albert O. Cummins
of Des Moines. Mr. Cummins is one
of Iowa's representative men. He was
a member of the Twenty-second gen-
eral assembly of Iowa and for four
years was a member of the Republi-
can national committee. He was born
in Green county, Pa., in 1859, and
came west in 1883. At 22 he studied
law and was admitted to the bar in
Chicago. In 1878 he located in Des
Moines and formed a law partnership
with his brother, J. C. Cummins.

It was realized from the first that
Mr. Cummins was in the lead and all
efforts to combine the field against
him failed. The ballot by which he
was nominated resulted as follows:
Cummins, 560; Trewin, 369; Harri-
man, 359; Conger, 42; Herriott, 8;
Mahon, 2. Mr. Cummins appeared be-
fore the convention, made a brief
speech of thanks and withdrew amid
thundering applause.

For lieutenant governor John Her-
riott of Stewart was the choice, on
second ballot. Brant was the only op-
ponent of Herriott, who gave him any
sort of a race. The nomination for
judge of the supreme court went to
S. M. Weaver of Iowa Falls, on the
second ballot. E. C. Brown of Shel-
don, for railroad commissioner, and
R. C. Berrett of Ossage for superin-
tendent of public instruction, com-
pleted the ticket.

In the platform adopted with a
shot, pride is expressed in the rec-
ord of the Iowa delegation in con-
gress, especially the selection of D. B.
Henderson for speaker. Senators Al-
lison and Dolliver are endorsed in par-
ticular and their reelection at the
hands of the general assembly to be
chosen this fall is urged. The admin-
istration of Governor Shaw is heartily
approved. It also expresses gratifica-
tion over the endorsement given to
the administration of President Mc-
Kinley by the decisive majorities of
last year, and rejoices in the man-
ifold benefits resulting to the country
from his reelection, which has in-
spired new confidence to the business
world, establishing authority and or-
der in our new positions and strength-
ened the position of this country be-
fore the world. The people of the
country are congratulated upon the
"enjoyment of a state of prosperity
that blesses every class and commu-
nity." The work of Fifty-sixth con-
gress, its action for the reduction of
taxation, and its constructive legisla-
tion, giving effect to the party declar-
ations of 1896 and 1899 are approved.
The national administration's insular
policy is emphatically indorsed. The
platform further says:

"We are earnestly opposed to all
legislation designed to accomplish the
disfranchisement of citizens upon
lines of race, color or station of life,
and condemn the measures adopted
by the Democratic party in certain
states to accomplish this end."

The policy of a protective tariff is
indorsed and such changes therein are
favored as from time to time become
advisable "through the progress of
our industries and their changing re-
lations to the commerce of the world."
Reciprocity is indorsed as the natural
complement of protection and its
duty, its development is urged as nec-
essary to the realization of our high-
est commercial possibilities.

Regarding combinations of capital,
the platform says: "We assert the
sovereignty of the people over all cor-
porations and aggregations of capital
and the right residing in the people
to enforce such regulations, restric-
tions and prohibitions upon corporate
management as will protect the indi-
vidual and society from abuse of the
power which great combinations of
capital wield."

"We favor such amendment of the
interstate commerce act as will more
fully carry out its prohibition of dis-
criminations in ratemaking and any
modification of the tariff schedules
that may be required to prevent their
affording shelter to monopoly."

Woman Postmaster Ousted.
Washington, Aug. 8.—A contest ex-
tending over many months and at-
tracting wide attention ended in the
appointment of Dr. J. P. Gray as post-
master of Newcastle, Ky. Mrs. Ger-
trude Sanders, the present incumbent,
made a hard fight to retain the office,
even appealing to the president for as-
sistance. She was successful in re-
taining the office for a time, but finally
was obliged to yield.

Fusion in Nebraska.
Lincoln, Neb., Aug. 8.—Meetings
were held by the Democratic, Populist
and Free Silver Republican state cen-
tral committees and fusion of the
three parties was agreed upon for the
state conventions of all being fixed
for Sept. 17 at Lincoln. W. J. Bryan
addressed the Democratic and Popu-
list committees and declared himself
strongly for fusion.

Will Try Convention Plan.
Louisville, Aug. 8.—At a meeting of
the Republican city and county exe-
cutive committees the recent primary
was annulled and it was decided to
hold a delegate convention Aug. 21 to
nominate an entire ticket for city and
county offices.

Big Four Double Track.

Cleveland, Aug. 8.—It was learned
that the Big Four railroad is con-
structing a double track between Wel-
lington and Cleveland to accommo-
date a new fall train with the Wheel-
ing and Lake Erie. The Wheeling
and Lake Erie intended during the
summer to build its own track from
Cleveland to Wellington, but instead
entered into a contract with the Big
Four to handle its business between
the two stations. The piece of second
track now being built by the Big Four
is part of an intended extension of a
second track to Gallion.

Shot Her Husband.
Youngstown, O., Aug. 8.—James Al-
len, employed at the Brown-Bonell
mills as a heater, was shot at his
home by his wife and removed in a
dying condition to a hospital. Mrs.
Allen was arrested. At the hospital
Allen said his wife fired four shots at
him while he was lying on a lounge.

LONGEST BRIDGE OF ALL

Facts About Chicago's Movavie Single Span Structure.

WITHOUT AN EQUAL IN THE WORLD

Exceeds London Tower Bridge in Length and is Designed to Carry Double as Much Weight—Contains About 1,500 Tons of Steel—Has Splendid Electric Equipment.

To the many things in Chicago which can be spoken of as the highest, longest and grandest has been added the longest movable single span bridge in the world, says the Chicago Post. Work on it has just been completed, and trains of the Chicago Terminal Transfer Railroad company, the Baltimore and Ohio and the Chicago Great Western roads will cross the Chicago river south of Taylor street on the new structure.

Construction of the drainage canal made it necessary to remove the pier of the old bridge south of Taylor street. The necessity for a bridge without a pier presented a condition of affairs new to engineers, and much discussion resulted as to the best plan to follow. After plans for the structure were made it was some time before a construction company was found ready to undertake the work and guarantee its successful operation. Its success is now assured, and Chicago has the longest movable bridge in the world. The Tower bridge in London is next to it, but the Chicago bridge exceeds its length by 75 feet.

The bridge contains in all about 1,500 tons of steel in addition to 700 tons of counterweights. Each moving leaf contains about 2,000,000 pounds, and, aside from having the longest span of any movable bridge ever built, the structure is especially noticeable in that it is built for the heaviest railroad service, carrying double tracks. The bridge is designed for a load of 10,000 pounds per lineal foot of bridge in addition to a concentrated load of 100,000 pounds at any point on the floor of the bridge, thus giving a carrying capacity of more than twice that of the next longest lift bridge in the world, the Tower bridge of London. The latter bridge has a span of 200 feet and is designed only for highway traffic.

In the construction of the substructure in connection with the present work difficulties were encountered in that owing to the narrow channel at the center pier of the present swing bridge it was necessary to construct a cofferdam of a single row of Wakefield sheet piling and to excavate to the depth of 25 feet below city datum, a feat thought by most of the river men of Chicago to be impossible. The substructure of each leaf on either side of the river is built on a foundation of 600 piles 50 feet in length and includes 3,500 yards of Portland cement concrete mixed in the proportion of one part of cement, three parts of sand and six parts of broken stone. The two piers contain 940 cubic yards of first class masonry.

SHIPPING LIVE FISH TO JAPAN

Well Boats Used in Carrying Them Across the Pacific.

The exportation of live fish, an industry just in its inception, promises to assume proportions proportionate within another year, says a dispatch from Tacoma, Wash., to the St. Louis Republic.

The increasing demand from Japan and other countries for fresh fish and the good market in all parts of the world are responsible for the innovation. A large Puget sound fish shipper says the day is not far distant when live fish will be sent by the shipload from Pacific coast fisheries to oriental points and other parts of the world. So far as this coast is concerned, the plan is an innovation, but it is said that in England it has long been in practice.

The fish are shipped in "well boats." These large tanks or wells in which the fish are kept alive until they reach their destination. After being caught they are put in the tanks in the "well boats" and fed on their natural food until they get to the consignee. In this way the buyers get fresh fish in exactly the same condition in which they are taken out of the water.

Goldfish Against Mosquitoes. People who own water gardens are loath to make use of petroleum in waging warfare on mosquitoes, because this mineral oil is as disastrous to the life of the plants as to the pestiferous insects. A fish culturist, however, declares, according to the Philadelphia Ledger, that goldfish are as effective in destroying mosquitoes as petroleum and that a dozen or two of these pretty fish in a tank full of aquatic plants will effectively keep the water free of larvae.

PORTO RICAN IMPORTS.

United States May Get the Best Coffee Now That Tariff is Off.

The question of Porto Rican imports is now interesting custom house officers. Tobacco, cigars, cigarettes and rum, the standard exports of the island, will be the chief imports subject to the internal revenue tax, says the New York Evening Sun. The custom officers are wondering what other articles subject to the internal revenue taxes will be imported.

Porto Rican rum is somewhat of an unknown commodity among local dealers. Little of it has found its way here, and how much the taking off of the tariff will affect its importation is a question. According to a well known liquor dealer, the rum does not differ materially from Santa Cruz rum and could be substituted for the latter in the making of punches and summer drinks. With no tariff on it, it can be bought much more cheaply than Santa Cruz rum. The internal revenue tax on rum must be paid after the product arrives here.

How far the removal of the tariff will affect the exported Porto Rican coffee to American ports is an interesting problem. In Porto Rico is grown the finest coffee in the world. Scarcely a pound of the product comes to the United States, most of it being shipped to Austria and sold in Vienna. Such of the product as is not sold in Austria is shipped up in Paris and St. Petersburg. The coffee is the highest priced of all coffees. A man who is versed in coffee lore said in speaking of the prospects of considerable shipments of Porto Rican coffee here that now that the tariff has been lifted he thought such shipments were probable, but that even without a tariff we would have to pay more for the product than for Java and Mocha coffees.

The deputy collector of the port of New York, when asked what he thought would be imported from Porto Rico, replied:

"I think that for some time tobacco, cigars and cigarettes will be the chief imports, with the possible exception of sugar. I'm not so sure about coffee. Porto Rican coffee growers have a fine European market for their crop, and time and experience can only determine whether they will decide to find a new market in our ports. So far as we know only tobacco and its products and liquors will be subject to the internal revenue tax. Whenever articles subject to this tax arrive we shall simply hold them until the internal revenue agents have collected the tax. I am told that they make a very good quality of hats in Porto Rico, and maybe we will get some of them."

A MODEL TENEMENT.

Mammoth Structure For New York To Accommodate 150 Families.

Plans have been filed for what will be the largest and most improved tenement house in the world. This structure will cost \$150,000 and be built by the City and Suburban Homes company on an Avenue A block in New York. The structure is planned in strict accordance with the new tenement law and will be the first of importance to be erected under present conditions, says the New York Evening World. It will occupy a square plot, be six stories high, of semireproof construction and contain apartments for 150 families.

There will be four main entrances and eight staircases. Each apartment will be in itself a complete private home, in that the occupants will have light, air, ventilation, comfort and privacy. Each apartment consists of an entrance hall, large combination kitchen and dining room, parlor and one or two bedrooms. The larger apartments will have private bathrooms.

Among many features provided for the tenants are gas range, sink and two white crockery washtrubs in each kitchen, hot water and steam heat, closets, dressers, shelving and hanging hooks, refrigerator space and pipes to carry off water in each private hall, dumbwaiters and dust chutes, clothes drying frames on the roofs and a complete laundry and steam clothes drying apparatus in the cellar, letter boxes, speaking tubes and electric vestibule door openers, a small storeroom for each tenant in the cellar and general storerooms, workshop, garbage room, boiler room, coal storage and a furnace for burning rubbish.

CENTURA, THE NEW FLOWER

Scotch Thistle and Carnation Crossed With Beautiful Result.

Evan Morton of Mayfair, near Chicago, has a garden full of brand new flowers. Centura is the name which has been given the new flower, says the St. Louis Republic. It was obtained by crossing the Scotch thistle with the carnation, and it partakes of the nature of both parent stocks.

The smooth stalk is that of the carnation, but more hardy. The leaf is that of the thistle. The sharp spikes of the thistle are merely suggested, and the leaf is soft to the touch. In color the centura is white and purple, a pure, lovely delicate white and a delicate lavender tinted purple.

Holds Record For Coalng Warships.

It was learned recently that the ships of the north Atlantic squadron had established another world's record in the matter of coalng ships, says a special from Newport, R. I., to the New York Tribune. Up to the time the squadron visited Pensacola the British armored cruiser Adriatic of the channel fleet held the record by taking on board 208 tons of coal within one hour. The Kearsarge, the Alabama and the Massachusetts each broke this record at Pensacola by the following figures: The Kearsarge 219 tons of coal in one hour, the Alabama 222 tons and the Massachusetts the extraordinary amount of 248 tons in one hour.

SABBATH DESECRATION

Was Discussed at the Presbyterian Prayer Meeting.

The matter of Sabbath desecration was discussed at length at the Presbyterian prayer meeting Wednesday evening. Special stress was laid upon ball playing last Sunday in this city and the proposed opening of the state fair on Sunday.

It was the opinion of those present that the authorities should be called upon to protect the rights of those who believe in a quiet Sabbath.

PROFESSOR HASTINGS RESIGNS

He Was Born and Reared in Coshocton County.

A special from Delphos, O., says: "On account of failing health Prof. Enos W. Hastings, who for 25 years has been employed as superintendent of the Delphos public schools, this morning presented his resignation. It is feared he cannot long survive."

Prof. Hastings has many relatives in this county, having been born and reared near Spring Mountain.

PREPARING FOR NEXT YEAR.

Property Owners on a Number of Streets Want Paving.

When Contract or Kissner completes the paving of Seventh street the work in that direction for this year will be at an end, but Coshocton will have more paved streets next year.

Already property owners on a number of streets have started the movement and petitions will be in circulation for Third, Fourth and Sixth before winter comes. They are in favor of an early start in order that the work can be done during the first months of next summer.

LOOKS VERY WELL.

Opera House Blossoms in a New Coat of Paint.

Work on the improvements at the opera house have been completed and the interior of the building presents a good appearance. Paint has worked wonders and the building is attractive and much more desirable as a place of amusement than for a number of years.

Manager Robinson is booking a list of strong attractions and expects the coming season to be among the best in the history of Coshocton.

Fought Like Madmen.

Charleston, Aug. 8.—After a hand-to-hand struggle with the police a negro giving the name of Mike Washington was captured. His brother, who claimed to be George Washington, was killed. Second Lieutenant Dunn was mortally wounded and First Lieutenant McManus injured in the fight. The negro in jail answers well to the description of the slayer of Chief of Police Jones of Shelby, N. C., who has not yet been identified positively. The negroes were heavily armed and fought like madmen.

SHOE DEPARTMENT.

Perfect styles, highest grades. Prices that will save you money. We have filled this department with a stock of shoes which we believe is unsurpassed in Coshocton. The most painstaking care has been used in making the selections. The best shoes are here—shoes that look well and wear well. The prices are much lower than competitors can hope to offer.

The American Auction Syndicate is a department store. Shoes occupy only one department. We are spared the expense of renting and equipping a store for the sale of shoes alone. When you buy a pair of shoes elsewhere you pay for elaborate fixtures. You pay for the rent of a large room. You help pay all the expenses of running a shoe store.

At the American Auction Syndicate the expenses of fixtures, rent, clerk hire, etc. are divided among 12 different departments—each store in itself, but subject to the expenses of one-twelfth of a store only. Hence when you buy a pair of shoes here you pay for just shoes.

Here are some shoe opportunities which will be appreciated by economical buyers:
We will give to every baby born in 1901 a pair of 7c shoes free.
Special prices on Tinware, Granite Ware, Hardware, Gasoline Stoves, Refrigerators, Crockery and Chinaware.
